
No. 2 Jack

THE Chicago Jack

One jack for all size cars. You don't have to spend a lot of time looking for something to put under your jack to make it reach the axle. The Chicago Jack is a high grade tool made from steel and malleable iron with all parts thoroughly machined. It is ball bearing, quick adjustable and has a double thread screw, making it extremely easy to operate. The Chicago Jack will do the work where other jacks are impractical, particularly when the body is low and close to the axle.

No order is too small to receive our prompt attention. Write for prices. Liberal discount to Jobbers. Dealers and Automobile Manufacturers.

No.	Adjustment	Rise of Screw	Weight	Capacity	Price
2	10½ to 22½	6 in.	8 lbs.	2 Tons	$3.50
Truck	10½ to 22½	6½ in.	22 lbs.	8 Tons	$8.00
